

Disposal Fees

Refuse disposal fees charged at the Miramar Landfill are based on the type of vehicle hauling the waste, type of waste, the average weight of loads, and whether the waste is generated within the City of San Diego. This is a general reference pamphlet and not intended to be the final determination for any specific load that requires special processing.

Cars, pickup trucks and small trailers are charged Flat Rate Disposal Fees. Larger vehicles are charged Standard Disposal Fees that are assessed "per ton" depending on the weight, type of refuse disposed, and where the waste was generated.

Additional fees will be charged for oversized, overweight or uncovered loads, and for extra processing by City staff and returned checks. All fees are determined at the gate.

If you have questions, call the Fee Booth at (858) 573-1420.
